76 Telegraph Hill Road

Interior & exterior render collection

Three-car garage at left, foyer and dining near center, and the full bedroom wing at right.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

The garden elevation

A deep covered terrace between two rear wings

The family, breakfast and kitchen spaces sit behind the covered patio; the two rear wings frame it.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

Kitchen, breakfast & family

One connected central space

The kitchen remains at the right of the plan, with breakfast and family areas alongside.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

Foyer & dining

A generous entrance beside the dining room

The foyer and dining room retain their side-by-side position and open division.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

The primary suite

Bedroom and sitting spaces within the original room layout

The primary suite occupies the rear-right wing, with its bath and closets along the outer side.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

The living room

A quiet room overlooking the garden

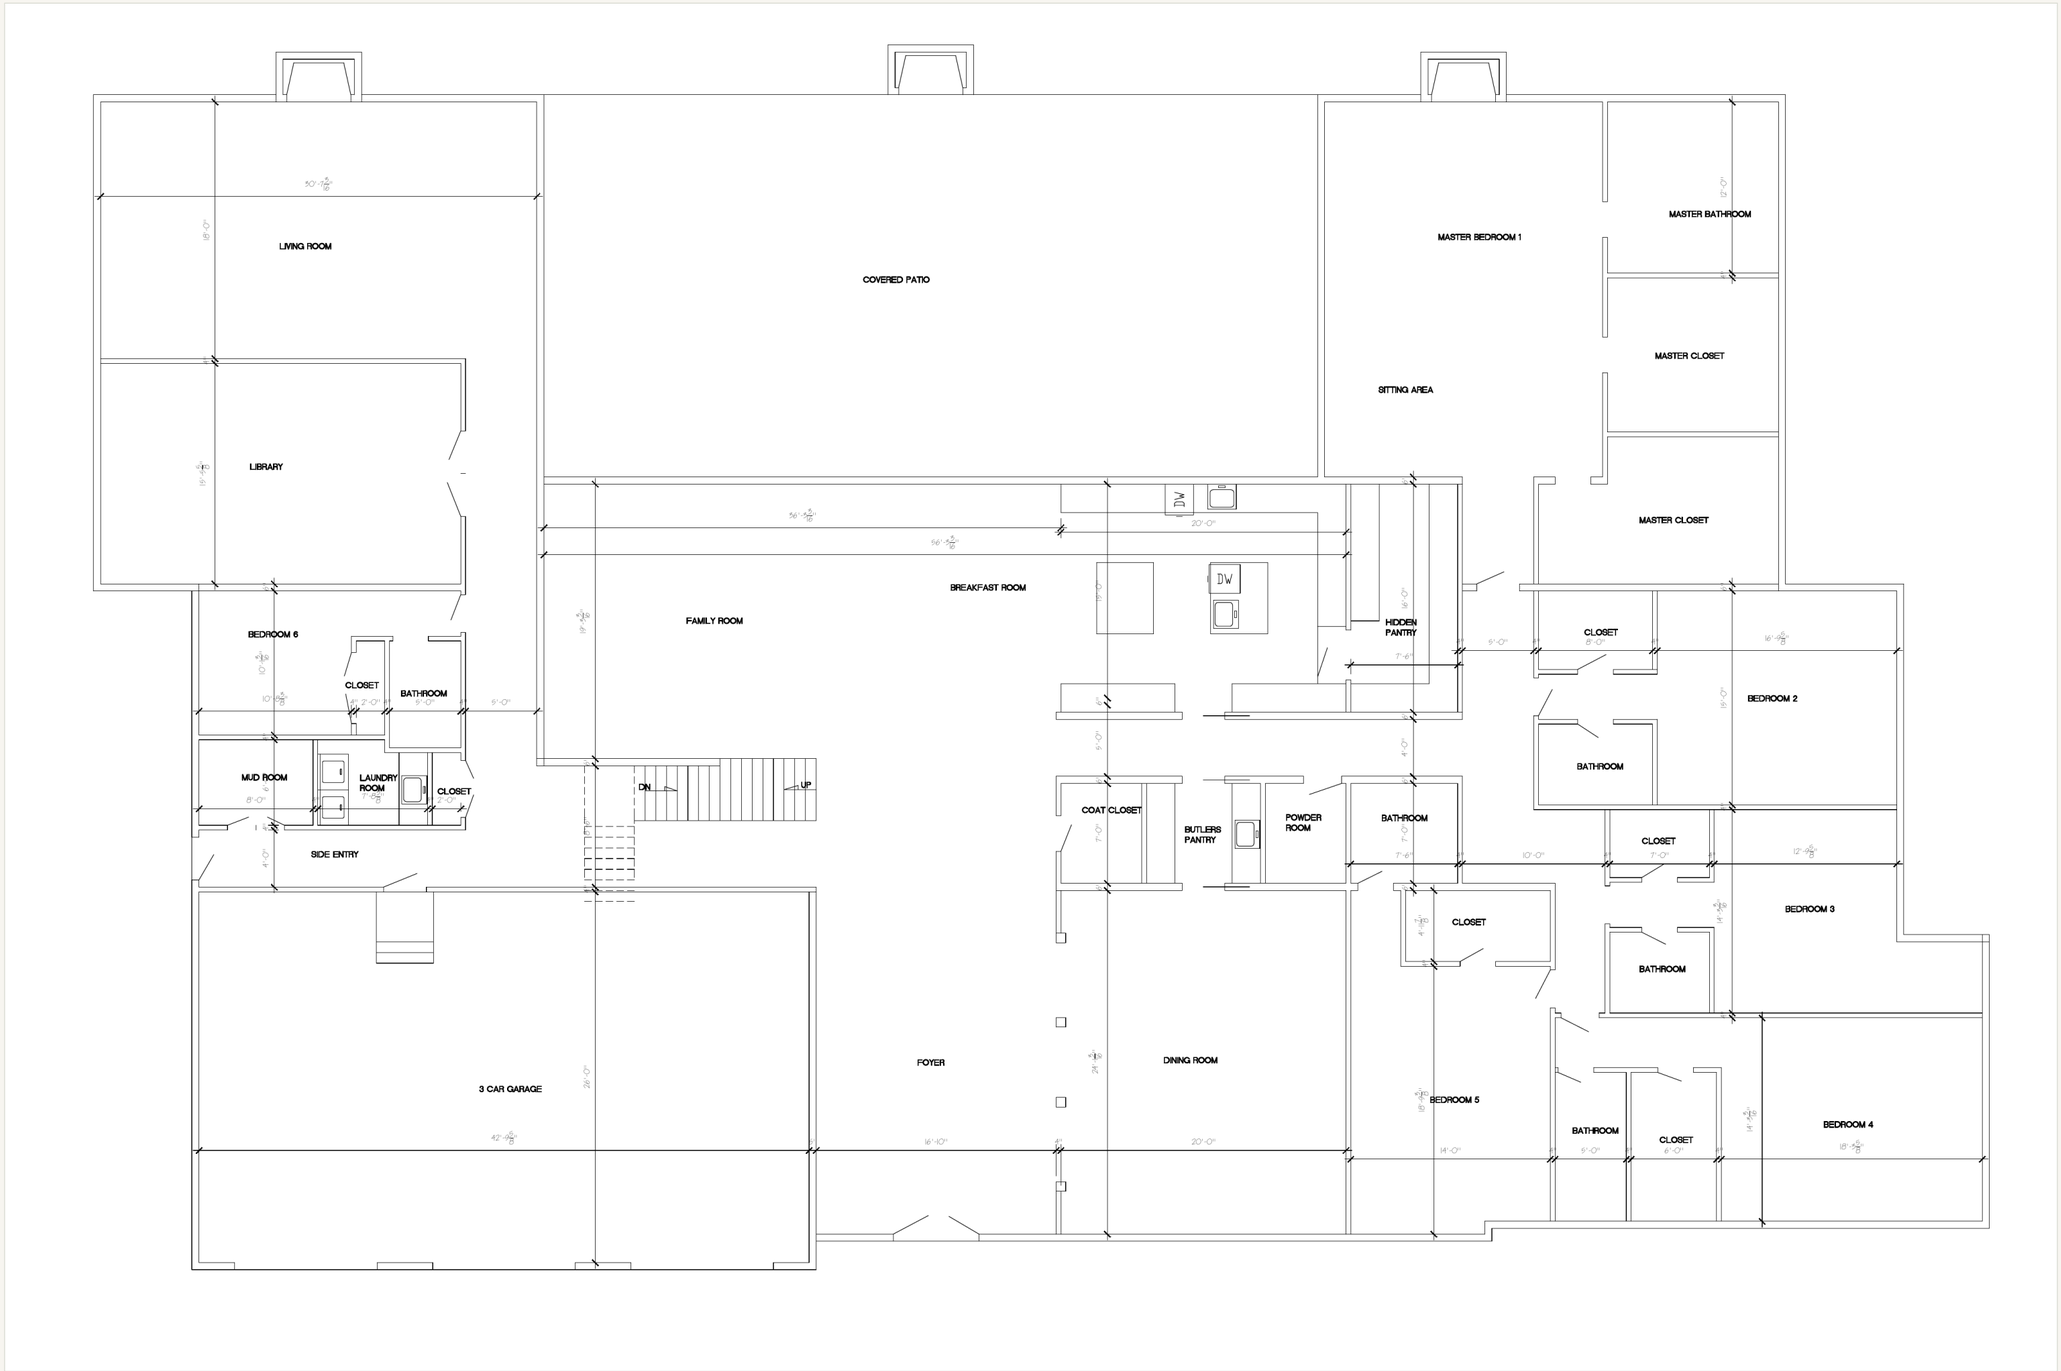

The rear-left living room remains distinct from the library immediately in front of it.

Concept visualization • Floor plan retained as reference; finishes, glazing and roof detailing proposed.

Your original floor plan

The controlling reference for walls, rooms and circulation

Front is at the bottom of the drawing; the covered patio is at the top.

Original floor plan preserved unchanged. Renderings are visual concepts, not a dimension-verified 3D model.
